Office Action Summary

The amendment of 11/29/01 has been entered. The amendment amended claims 1, 3, 5, 11, 21, 23, 24, 26, 30 and 31, added claims 32-34, and canceled claims 4 and 22.

Claims in the application are 1, 3, 5-13, 15, 16, 19-21 and 23-34.

5 Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1, 3, 5-13, 15, 16, 19-21 and 23-31, drawn to a process of simultaneous of xylitol and ethanol for a starting material of hydrolyzed lignocellulose-containing material, classified in
10 class 435, subclass 158.

II. Claims 32-34, drawn to a process of simultaneous production of xylitol and ethanol from a starting material of sulphite spent liquor, classified in class 435, subclass 161.

The inventions are distinct, each from the other because: the
15 processes of the inventions of I and II each require different process steps. In I, the starting material is a lignocellulose-containing material that has been hydrolyzed. This requires hydrolyzing a lignocellulose-containing material as beginning steps. In II, the starting material is a sulphite spent liquor, and there is no requirement
20 for a hydrolyzed lignocellulose-containing material requiring steps of hydrolyzing a lignocellulose-containing material. Thus, the steps of the processes of I and II are based on two different inventive concepts of processes for simultaneous production of xylitol and ethanol. Each process can be performed without performing the other.

25 Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their

different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even
5 though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any
10 amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
